

SFS-114-F

Fire secured metal tie used in conjunction with Smart fixing Solution clamp SFS-114-01 for fire secured installation of RFS RADIAFLEX radiating cables

Fire Secure Tie for SFS-114-01. Including Isolation plate for glavanic isolation to avoid Intermodulation degradation.

Features / Benefits

Fire resistance acc. EN 1363-1:2012-10 under 50 N load >75 min

Fire resistance acc. EN 1363-1:2012-10 under 100 N load >45 min

Mountable without tools

Technical Features

GENERAL SPECIFICATIONS

Product Type	Installation Hardware
--------------	-----------------------

STRUCTURE

Installation Hardware Type	Fire Secure Tie
Coaxial Cable Type	Radiating Cable
Cable Size	1 1/4"

MECHANICAL SPECIFICATIONS

Material	Strap: Stainless Steel, 1.4401 (A4) acc. EN 10088	Isolation plate: Polypropylen (PP)
